Education

Priyadarshini College of Engineering

Bachelor of Engineering in Information Technology, 8.4 (aggregate score till 5th sem)

2020-2024

Nagpur

Major Hemant Jakate Vidyaniketan

HSSC,

2018-2020

Nagpur

Technical Skills

- **Programming Languages:** C, C++, Java.
- **Blockchain Technology:** Solidity, Metamask, hardhat.
- **Web Development Technology:** HTML5, CSS3, Javascript, Typescript.
- **Database:** MySQL, MongoDB.
- **Frameworks:** ReactJs, Bootstrap CSS, Tailwind CSS, NodeJs .
- **Others:** Blender, Unreal Engine, Visual Studio Code, Git/Github.

Experience

- **Open Source Contribution** (Web Development Contributor)
 1. **Objectives:** With a proven track record of actively participating in GitHub projects, got many prs merged and Helped many folks during Contributions.
 2. Contributed to various **ReactJs, NodeJS** and **Python Repositories..**
- **Code Stomp Hackathon** (Organiser) Aug 2023
 1. **Objectives:** Organised a successful Hackathon with more than 100s participants **Worldwide.**
 2. **Constructed** Coding Questions based on **Queues, Stack, HashMap, and other Data Structures.**
 3. **Developed** relevant **edge and test cases** for the same.
- **IT- NetworkZ Infosystems Pvt Ltd** (Web Development and Salesforce Intern) Feb 2022- April 2022
 1. **Objectives:** Worked with Respective mentors where I learned about the **Customer-Relationship Model** of **Salesforce.**
 2. Built many **Static Websites** using **Vanilla Javascript, HTML5, and Custom CSS.**

Projects

- **BlockChat** ([Github](#)) ([Live Link](#)) **Solidity | HardHat | Metamask | NextJS**
 1. **Real Time Decentralised Messaging App** where users interact with one another through a **seemless secure line.**
 2. Developed using **Solidity** for **smart contract**, **NextJs** for frontend and **Ethereum Virtual Network** as **Hardhat.**
 3. Users can **create their account** using a **private key** with **metamask** including features like **add friend, remove friend, delete chat** throughout the blockchain network.
- **Multi-media Streaming Platform** ([Github](#)) ([Live Link](#)) **ReactJS | MongoDB | TailwindCSS | NodeJS**
 1. **Highly Interactive Media Web applications** that can save time for up to 60% of users for downloading trending videos, posters, and trailers and viewing information about a particular movie or series.
 2. It provides a highly stunning and visually appealing Interface with **dark mode**, where users can **create account.**
- **Metaverse Product Website** ([Github](#)) ([Live Link](#)) **ThreeJS | ReactJS | TailwindCSS | Framer Motion**
 1. Proficiently Displaying **3D movable models** which can assist users to use their creative skills to design T-Shirts
 2. Integrated with **Dall-E API** helps in smooth designing Protocols, a powerful tool for artists where they can download their 3D-designed T-Shirt.
- **BlogSite** ([Github](#)) ([Live Link](#)) **GatsbyJS | Sanity.io | Custom CSS**
 1. **Artistic and Stunning UI** where users can write their **thoughts** and **ideas** and **share them** with their **community.**
 2. Diverse **Tags** and **Topics** are available as per the writer's preferences and can be manually added.
 3. Provides an **effective** and **reliable** way to communicate and express themselves.

Certifications and Achievements

- LeetCode Annual Award Winner after Solving 99% of daily Coding Challenges (Won **LeetCode Goodies**).
- **Problem Solver** where I Solved more than **500 problems** over **LeetCode, Hackerrank, and CodeChef.**
- **2 Star** on CodeChef in **Long Challenge** (2021 stats), under top 25 out of 200 in **Ode to code Hackathon** organised by our college
